

Trend Cinch Fit Elbow

DCT-3761 The Trend Cinch Fit Elbow is designed to protect and support sore, weak, or injured elbows and arms. This elbow brace is designed to be extremely low profile with breathable material and an easy to don and doff design. The ROM dial in the center of the brace makes it a breeze to adjust the desired flexion and extension, truly making this the most patient compliant range of motion elbow brace on the market.

Highlights

- Low-profile design
- Beathable Material
- Adjustable ROM dial
- Easy on/off

Indications

- Chronic elbow injuries
- Elbow Hyperextension
- ROM control post injury
- Tendon & ligament injuries or repairs
- Tennis elbow
- Triceps tendon repair

PDAC Approved: L3760/L3761
