

PrOAlign Knee

DCT-4351 The Trend PrOAlign Knee is a soft-shelled, breathable, macroporous mesh, OA knee orthosis designed to offload the medial or lateral compartment for patients with mild to moderate knee osteoarthritis. Lightweight mesh construction and form-fitting frame reduces brace migration and rotation, enhancing comfort, wearability, and long-term patient compliance.

3-Point Leverage Mechanism

Offloads the affected medial or lateral compartment producing a clinically proven relief in osteoarthritis knee pain

Highlights

- Dual unloading mechanism
- Low profile single upright design
- Soft patient-compliant exterior
- Breathable mesh interior
- Universally sized
- Form fitting frame

Indications

- Moderate to mild unicompartmental knee osteoarthritis
- Degenerative meniscal tears
- Osteochondral defects
- Articular cartilage defects and repairs

PDAC Approved: L1843/L1851
