

# Trend Patella Knee

**DCT-PT12** The Trend Patella Knee Brace offers effective patella stabilization with a pull-up design and a gel ring for added support. Its moisture-wicking fabric and breathable zones enhance comfort, while lateral hinges and adjustable dual cross straps provide personalized support for everyday activities.

## **Patella Stabilization**

The pull-up design and gel ring provide targeted patella support, reducing pain and preventing misalignment during movement.

## **Highlights**

- **Comfortable Fit:** Moisture-wicking fabric and breathable zones keep the knee cool and dry, reducing discomfort and irritation during wear.
- **Customizable Support:** Lateral hinges and adjustable dual cross straps allow for a tailored, secure fit, ensuring the knee brace stays in place and provides optimal support based on individual needs.

## **Indications**

- Moderate to mild unicompartmental knee osteoarthritis
- Degenerative meniscal tears
- Osteochondral defects
- Articular cartilage defects and repairs

## **Everyday Use**

Ideal for daily activities, providing reliable support for movement and reducing knee strain.
