

# QUICKFORM TLSO

**DCT-QF56** The Trend Quickform TLSO is a dual purpose orthosis that supports, stabilizes, and corrects the mid and lower spine (T9-S1). The Trend Quickform TLSO features a semi-rigid composition, padded belt, and 4:1 pulley system that synergistically provides optimal posterior, anterior, and lateral support. The Trend Quickform TLSO features a standard adjustment system that can be adjusted to accommodate a patient's specific needs.

## **Superior Post-Operative Support**

Limits forward movement during the healing period to optimize recovery

## **Highlights:**

Provides immobilization and motion restriction

- Effectively assist postural correction
- Provides rotational stability and motion restriction
- Robust and durable materials enhance intracavity compression for effective pain relief
- 4:1 pulley system applies consistent compression
- Trend TX2 No Grip closure for patients lacking hand strength
- Patient Friendly Design
- Quick release buckles on shoulder straps for easy application

## **Indications**

- Conditions requiring gross immobilization of the thoracic and lumbar spine
- Post-surgical immobilization
- Kyphosis
- Spinal stenosis
- Herniated Disc
- Degenerative spinal fractures

PDAC Approved: L0456/L0457
